## Part One - A Hidden Apocalypse ::

Isn't it absolutely astounding to think clearly and have vivid dreams? [Think About It, if you can!] Its power holds no bounds. You have a right [**free will**] to think as you wish. It is our [country], and maybe the only country [our brain] we really have left. Your [**brain**] is the heart of your soul. This may be your last chance to save it from a covert and vicious harvest.

The **enemy** has struck at the source, and by either partial chance or by [killing several small birds with one stone], you are becoming a slave of mind control with the intention of making you [docile and subservient]. Your freedom is being ripped away right before you, and the **attack** is worse than anything you could imagine. Take an opportunity to create a new consensus divided amount what is believed as **fiction** when it may actually be **fact**. Base this on a theosophical and biological conclusion of all the evidence presented. Discover how Dan Brown's twisticism really works in the real [your brain] world.

**Please take the time to learn [link] this secret!** [This is for those who think they have a spirit or driver, see [Agenda](#).] If you don't think you have either, then it is probably too late.

It sounds like a horror movie or some type of fantasy to many who either don't care, or can't think. This clearly means the effect has already begun, and has been in effect now for almost 60 years. What you're about to read can **open up your mind**, or what's left, and show you that your authorities have ignored, and blatantly used your free will to [**increase their profits and control**], and conversely affect your ability to [**realize it**]. If you thought David Koresh or Jim Jones were good at turning followers into robots, you're going to be **shotgun shocked**.

**Fluorinating the Body** May Be the Worst Nightmare for American's Ever!

Is this a Conspiracy? Just read this complete essay and you may weep! This is Mostly Ignored and classifies as DISGUSTING OF THE HIGHEST ORDER!

Enough data and research is known [without a shadow of doubt] that fluoridation of public water supplies is not only **unethical**, it is **downright criminal**. [See all references included in 5 parts.] Even with this fact known by some, your public officials and those [PTB's - Powers To Be] still do not alert the public of the dangers and take action to remove this dangerous chemical and others from the water processing plants. [???] Please read a Press Release from a reputable advocacy group that was recently posted on March 22, 2006. [NRC Delivers Wake Up Call on Fluoride](#)

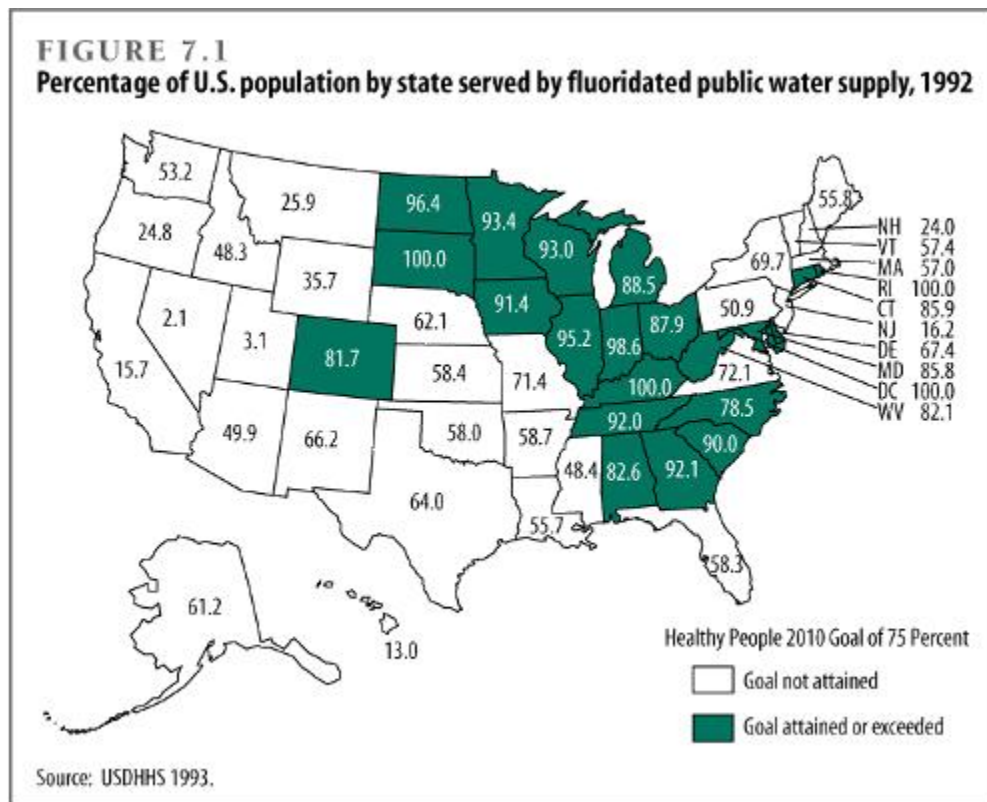

Just in late 2005, researchers from the Montreal Neurological Institute and Department of Neurology and Neurosurgery did another significant study. They reported that generalized epileptic discharges show thalamocortical activation [discussed in part three] and suspension of the default state of the brain. [Read more.. [Suspension of Your Brain](#)]

Epilepsy has often been connected to excessive chemical exposure. My brother suffered from this disease [reaction] after using too much [Bug Spray - deet]. He was a *Flight for Life* helicopter pilot and was grounded immediately once the first episode occurred. He had received the dosage during Reserves duty. So we are now learning that the chemicals GO STRAIGHT TO THE BRAIN, and directly to the PINEAL GLAND. My brother has now; several years later, been able to return to flying by purchasing medical supplies and more chemicals, [in a bottle].

According to the U.S. Department of Health and Human Services, the goal of total saturation is approaching complete [target has been destroyed]. Including the main puppets, [CDC & FDA who have never approved fluorine required by law]; their statements reflect that fluoridating your drinking water has been on **target status** or an **agenda** to saturate [fluorine contamination] the **Entire Population of the U.S.** A Death Squad Move...

[Chart from 1992 posted at [Just Think It](#)]

Valid Public Information that is updated furnished by our government authorities is readily NOT AVAILABLE. Just search the CDC and see for yourself. Seems covert. [???

Even as smaller communities fight back, the whole process is flip-flopped.

It seems instead of working to solve this problem from the top down, we work from the bottom up, digging through the dirt, so to speak. Healthy People? [Referring to chart title above.]

**Disgusting does not describe it, puppet master!**

Looking at the entire US, California is always ahead of the country in reform. An article located at the website [California Citizens for Safe Drinking Water](#) entitled, "[Fluoride: Industry's Toxic Coop](#)" by Joel Griffiths is highly recommend reading. Yet this article is now 8 years old and most of the country is still being saturated at high levels.

Most all other countries have long ago ruled fluoridation use in water supplies is **unethical and dangerous**. Read the top [50 Reasons Why Fluoride is Killing You](#), and your children.

There are more problems with this onslaught into your mind. The collected data and documentation tells a dark story about your future. If it could get possible worse, **it has**. Not only does all this evidence reveal a Secret War in Your Mind that directly affects your ability to think clearly and freely, it also may affect your entire life cycle including your health dramatically.

On the dark side of this *farce*, this is all about something called **GREED**. Corporations, who also **own the media nearly 100%**, are in [business] to make something they want. They are willing to do **anything** to get it.

**The PTB's are making you Stupid and Unhealthy  
because there is Big Money in it!**

If you focus on an amazingly misunderstood organ in the center of your brain called [**the pineal gland**], you may now realize the *Neo Nightmare* could be real. Too much valid research is now available to tell a **completely new story** about the ability of thought in the brain.

For those of you out there who are fighting the fight, this information will help you to win this real and [nasty] battle ahead! Otherwise, you and your entire family, centrally your children, the future race, can be at risk of a hidden apocalypse to destroy most if not all, of your ability to even fight at all! This [fair enough requested consensus] will help to show why this lack of respect is a sick violation of [what is spiritually left] of our soul rights in America. We are being manipulated at at much darker and sinister level from simple lies, acceptance, and greed. Have you seen...

**Amber Alert - Corrosive Fluoride Poison Shuts Down  
Pineal Gland in Children. Children May Lose All Ability to Reason**

One mother said, "I don't know why we're drinking it in the first place. It's always greed!"

And recent studies show a significant number of permanent teeth can become BLACK STUBS from a disease [reaction] called Fluorosis. **Fluoride** ingested regularly into the body from an [unlimited source invasion] abusive intent [obviously does more harm] manifests a dark **False Profit** overshadowing corporations along with the dental health industry. The doctors themselves can't even speak a [single word] about why fluorine

may actually be a poison, or they can immediately lose their licenses. Freedom of speech at it's finest! So, who are you left to ask? Clever tactic...

The real **kicker** is the fact that the elements of fluorine makes it possible to dispose of industrial waste at an astronomical savings. Fluorine is a byproduct of nuclear production including fertilizers, pharmaceuticals, and literally thousands of other household chemicals used in your life daily. This raises the issue that an **over-contamination event** has already occurred and is in progress. Since fluorine is used **extensively** in disposal, just where is all this chemical really ending up and just how dangerous is it to our health and our minds? It gets much drearier...

**First**, read what this **dark negative chemical element** is really made of. Why not, **Stop Contamination** covertly distributed like candy on a daily basis.

## Part Two: The Elements of Fluorine - The Dark Master ::

**Fluorine** is the atomic *number 9* in the periodic scale. The definition of this element states it **is toxic**, is a **dangerous** free radical, is a strong acidic oxidizing agent, and considered the most electronegative and chemically [reactive] **poison** of **ALL ELEMENTS KNOWN**. You may now be drinking it along with absorbing it, from many sources. Would someone please tell the [PTB] how to read a dictionary?

**Fluorine** [F- reacts or transforms] with practically all organic and inorganic substances. When crystallized in cubic structure in the brain, which reminds me of the Borg, your Pineal Gland is the energy receptor or vacuum that sucks it up. I will speak of a simply ignored [reaction] and [reactive] correlation in the future.

We'll also cover a direct reaction on pH when the Fluorine ion compounds are absorbed into your body. This added angle of attack can turn your seemingly normal life, into a unknown reality.

Fluorine **Negative** Ion Atom [F]. According to Octet Rule.

What science now knows about electrons and atoms is completely different than is being taught in grade schools and high schools. The quantum number and quantum physics are now prevalent in our understanding of what is **really happening** inside our molecules, and in the universe. This goes much deeper into the rabbit hole and needs understanding. [1]

**The Element Fluorine [The Dark Master]** is a strange one and it's relation to Chlorine is even stranger. More toxic than lead, just behind arsenic; you cannot do simple solution reactions. It's [agent of being different than all other **halogens**] is too powerful, and it even oxidizes in water.

Often glass is used to find the presence of **Fluorine** because it **eats glass**.

The Fluorine [F] electron [reactions] also produces more heat [density] and it is classified as the most **electron negative element**, in a repulsive nature in our universe. This is in comparison to Chlorine when forming hydrated ions [2- Hydrofluoric Acid].

When we study atoms today, their parts are considered [energy] as versus old models called shells. Fluorine exists at room temperature in gaseous form, is completely invisible, odorless to about 25 PPM, and at 30 PPM, it is **deadly to humans and most all living species**. These figures could be off, it is probably closer to 15 PPM as an alarm for a fluorine detection device.

It's almost as if Fluorine [which attacks the brain at what I consider, the highest level, i.e. knowledge, light], is the dark side of the energy force you currently drive, but it could be much more than that, and worse than any matrix imaginable. Overview **Positron Emission Tomography** or PET and step into the next world of radioactive isotope energy signal mapping. Notice they talk about [energy] leaving the body. This is **not science fiction**, hello Dorothy.

When you study the definition of **Fluoride** [simple negative ion with **highest toxic rating** of 4.0], the results are predominately **disinformation tactics**. The real definition is based on science, **not compliance**. The 82nd Congress hearing held in 1952 stating that more research was needed, ended up filed in the [American rights ignored] cabinet. This *Committee* clearly showed no basis for saturating our water supplies. Again, PTB mind block tactics.

In 1977, The National Academy Of Sciences (NAS) reported that for average individuals, a retention of [only] 2 milligrams per day would result in **crippling** skeletal Fluorosis [reaction] after 40 years. Many are at risk because of its bone seeking nature and affinity to calcification. As of 2006, there are hundreds of references to its carcinogenic affects. An additional dark side of its properties is you cannot expunge more than 50% absorbed in any living scenario. This is only more negatively affirmed confirmations sent to the [ignored American children files]. [3]

Dr. Jennifer Luke from the University of Surrey in England completed a study that resulted in learning the **primary target** of Fluoride is the **Pineal Gland** in the brain. [4] Her results and others show that Fluorine suspends the synthesis of melatonin production in the brain produced by the Pineal Gland. Increasing or disrupting our metabolic functions is like **playing with God**. Well, in fact, Fluorine [in its many forms] is calcifying your delicate membranes or brain tissue that has the ability to communicate at peak human existence. We've found a way to disrupt hormonal harmony in the nature of man, woman, and child on a more undeniable scary, and permanent level.

Children have died **in the dental chair** because of accidental overdose to Fluoride. This has happened within minutes. You will never read it in the [breaking news] that are [**disinformation tactics**]. Causing a concatenate in the minds of a significant amount of the public is necessary. It's a horrible thought in how the predacious might think of this. Your loyal reporters [are told] to do their filing in the [American rights ignored] cabinet.

There's a way to debate, and then there's a way to relate that's above all rebate.

"Doubts and jealousies often beget the facts **they fear**." *Thomas Jefferson*

## Negatively Crystallized at the Soul's Neo-Source::

**Dark Fluorine Invader has arrived.**

**Your Superman Powers have been denied!**

It resonates like a possible outcome when you read everything. Understanding what may have completely changed the outcome of our society, if this covert tactic had not occurred, is startling and overwhelming. Extracted from Nexus Magazine, [Fluoride & the A-Bomb Program](#), written in 1997 by Joel Griffiths and Chris Bryson, reported startling evidence of the Secret Fluorine Ion's Invasion Plan. The human effects were **classified** ironically as a reason of national security. Covert just moved out of Kansas.

There's a small dwarf alien on the [digital signal visual receiver] saying, "Hi, I'm Mr. Fluoride Man, I CAN EAT GLASS and calcify [crucify] thee. Just drink me." [???

## Part Three - Your Pineal Gland May Be Dead Calcified Tissue ::

Your brain is really like a neo-helmet from outer space. It's your cockpit control center, and connection [electromagnetic] to any spiritual or 4th dimensional world that may exist.

[See [The Secret Solar System.](#)]

The graphic image at right shows a small **red dot** in the location of the Pineal Gland nearly in the center of the brain. The physical eye of the body receives an image which the brain converts as a mirror in your mind, [reversed image]. In mythology, The "Pineal" is considered the mystical "Third Eye" which works outside the physical eye, or eyes known as thieves in the King James Version of the Holy Bible. Bill Donahue describes the [Single Eye Pineal](#) and provides the **correct definition** of the Pineal Gland function better than anyone I've read.

"**The Pineal Gland** is a small [8 mm in human] reddish-gray body located above the superior **colliculus** and behind and beneath the **stria medullaris**, between the laterally positioned thalamic bodies. It is responsible for the production of **melatonin**, which has a role in regulating the circadian rhythm. Melatonin is a derivative of the amino acid **tryptophan**. The production of melatonin by the pineal gland is **stimulated by darkness** and **inhibited by light**."

Genesis 32:30      And Jacob called the name of the place **Peniel**: for I have seen God face to face, and my life is preserved.

Psalms 18:11      He made **darkness** his **secret** place; his pavilion round about him were dark waters and thick clouds of the skies.

Matthew 4:16      The people which **sat in darkness** saw **great light**; and to them which sat in the region and shadow of death, light is sprung up.

**Rene Descartes** called the Pineal, the Seat of the Soul. In Pinealogy, it is believed that the pituitary body and pineal gland's purpose is to communicate, thus creating vibrations [magnetic fields] that are unified. This can only be achieved through forms of meditation, most effectively in total silence and total dark.

An effective scenario might be total relaxation, followed by relaxation of all physical muscles related to your [physical eye, eyes], or [no thought idiot]. Then, immediately do what I call, [Think like a Hammer], and mark the point in the center of the forehead. [You're doing this in your dark space of your mind only.] You are light [or knowledge] and a light being [angle of light] from centrally located in your forehead.

Revelations 5:1      And I saw in the right hand of him that sat on the throne a book **written within** and **on the backside**, sealed with seven seals.

This [transformation] occurs as an electric generator [with a starter key], originating at the base of your

spine, and traveling up straight to the Pineal Gland. Eastern philosophy has long believed in the Seven Chakra System. Strangely, the heart of religious America is resistant to quantum open thinking or maybe better classified as *rabitholisticism*. [???

This image at left shows the head with face, skull bone and brain helmet removed. The Pineal Gland accepts energy up the spine and can produce [trace amounts] of the **psychedelic** chemical **dimethyltryptamine**, or **DMT**. This **endogenous** chemical is a form of [energy] within you. [Remember, we talked about energy leaving your body?] When you look up DMT, you'll understand. [Mystical powers in humans might be a very good reason to stop reason for the PTB.]

What is the correlation between DMT and thalamocortical activation? I propose this is the **secret window** in the normal uncorrupted function of the mind, and healthy body metabolism [at a higher level of consciousness]. Part of that metabolism concerns the main constituent of **Ayahuasca** naturally secreted from the pineal gland.

This brain power [byproduct] production is possibly a window into the spirit world that Shamans have used for centuries. This is also activating an epiphany [correlation - **epiphysis** or end of long bone], of the divine or mirror [**where two particles exist simultaneously**], into your true presence. Read it again...

Let's delve further to understand how the toxic invasion, from this seemingly dark Fluorine Ion, shuts down all chances to find and connect with your **secret spiritual soul power**.

~ Again, this is not science fiction!

**Matthew 6:6** But thou, when thou prayest, enter into **thy closet**, and when thou hast **shut thy door**, pray to the father which is **in secret**; and thy father which is **in secret** shall reward thee openly.

We've confirmed studies now that show the Pineal Gland is the primary target of the Fluorine Ion for concentration, as though this dark force is closing off the connection. Reports of simple pineal gland cysts in the brain have been released. Currently, US Emergency rooms are dealing with a sort of [break out] in health related problems. If America doesn't [act fast], this secret war in your mind may end up like a deserted storm. To classify this pineal gland disorder [as a disease] you would need to call it **short circuited mass destruction of the mind**.

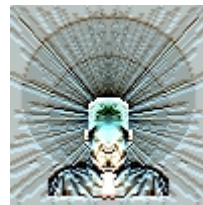

## The Veiled Retreat::

As mentioned in Part One, A Hidden Apocalypse, the Dark One [ion] is **[targeting]** your thinking and reasoning control center. This complete brain processing is all about 3 parts. You have the left side and right side divided. The third part is the Pineal Gland accepting energy and it's fed into the **Fornix**, an **arch** or vault-like structure of white fibers circling the **thalamus** which carries signals from the **hippocampus** [memory or ram] to the mammillary bodies and septal nuclei.

- Exodus 26:33 And thou shall hang up the **vail** under the taches, that thou may bring in thither **within the veil** the ark [arch] of the testimony, and the **vail** shall **divide unto you** the holy *place* and the most holy.
- 1 Kings 6:27 And he set the cherubims within the **inner house**: and they stretched forth the wings of the cherubims, so that the wing of the one touched the one wall, and the wing of the other cherub touch the other wall: and their wings **touched one another** in the midst of the house. [in your head]
- Exodus 25:20 And the cherubims shall stretch forth their wings on high, covering the mercy seat with their wings, and their faces shall look to one another: **toward the mercy seat** shall the faces of the cherubims be.

Your soul energy is like a current flowing up the 7 spine chakra **resistors** and many entice their being while resonating the sound [OHM], which also correlates with the universal measurement for **resistance**. The Fluorine Ion changes all atoms directly proportional to the opposite of this by adding an additional element, or negative balance to the original 7 electron chakras.

Since our brain is really like a computer that runs on electricity, it makes sense that resistors would be required to prevent short circuits. **Does it mean more than that?** It may mean that **resisting** [the physical eye] is much more important in understanding your healthy brain function. I propose that it is.

- Deuteronomy 11:9 And that ye may prolong your days in the land [your secret place], which the Lord sware unto your fathers to give unto them and to their seed, a land that floweth with **milk and honey**.

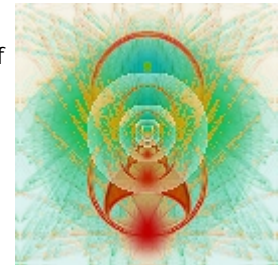

Dennis J. McKenna, Ph.D, [The Indiana Jones of the Ayahuasca Grail], wrote an essay entitled, [Ayahuasca and Human Destiny](#), dated April 26, 2006, It's a sincere heart centered request to **pay attention** to the extremely important research surrounding the **Ayahuasca Energy** properties, and correlations to our optimal mind function. His essay was reproduced in an **open** forum.

I bring this up now because in plant form, the Ayahuasca mystical properties contain DMT, a Manna or [mannitol]. Your brain has a milky white fibrous substance. [Bill Donahue](#), presents [The Human Brain and Ancient Meaning](#), and points out the correlation of galactose [surgery substance] in the brain, along with [galact] which means [milk].

Is our brains **Literally** a **Galaxy** [untapped](#) in our own **Milky Way**?  
Just how deep does this rabbit hole go?

## Part Four - God's Solar Connection Infection ::

Our connection to God might be considered to many as Esoteric Soul Rays. Receive the esoteric meaning of love divine by activating your solar [centered] system. Read [The Secret Solar System](#) if you have not. What may be happening in our society is a kind of [solar plexus block tactic] by the PTB.

The Pineal Gland contains enzymes needed to synthesize something called **Melatonin** from its parent amino acid, tryptophan. The Melatonin that is believed to be secreted by the Pineal Gland has shown to be [rhythmically] responsive in synthesis, [dark/light]

It is also believed the Pineal Gland converts a signal received that is neural into an endocrine. So in light, you receive norepinephrine, and in dark, melatonin. Studies have been done with **animals** who have been kept in light continuously. Their systems shut down, whereas in dark, it remains stable. Monoamine Oxidase [MAO] is a neurotransmitter that controls serotonin. The Neuro-serotonin is believed to only be made from Melatonin, and is contained in the pineal at a high concentration level. If the MAO path is blocked, **DMT can** begin secretion. This is where it gets better.

In 1995, S. Roney Douglas wrote a thesis entitled, [Where Science Meets Magic -Ayahuasca and The Pineal Gland](#). Roney reveals the main natural chemical coming from the Pineal called Beta-Carbolines. So how do we block this MAO and what is Beta-whatever??? These Beta-Carbolines contain DMT and other unique chemicals to regulate this **super powered** processing center. As you've seen the properties of ayahuasca, DMT is the main property for our ability to **see visions**, almost like a drug. **Imagine** the power to control this in your brain. You already have the drug built in, you just need to tap into it.

So when you sleep, you receive melatonin, and your pineal electrical activity is **higher**. Your **rhythmic** sleep is REM versus Non-REM. REM is less often but in cycles. It is the properties in Beta-Carboline that regulates this REM cycle. I present another correlation between dreams and visions while meditating. They are both regulated by Beta-Carbolines from the PINEAL POWERED GLAND. The definition of **beta-carboline** is described as an organic amine, and it inhibits MAO production. MOAI's are inhibitors of MOA that are commonly sold as DRUGS to people as an anti-depressant manufactured from a [pharmaceutical] chemical company.

The conclusion is a little jab to get you thinking! People are given a drug because they can't think, [similar to the **animals** with too much light]. Yet, two feet to the left, you could **utilize dark [meditate]**, and secrete the drug yourself.

This man-made drug blocks MOA so the pineal can secrete some of the beta-carboline's properties. The user thinks they can sleep better, control anxiety, and [through thought modification] it simulates the negative effect of zero down time in your mind.

Why not **think your way out** of this subservient behavior? Get some dark time! And not just sleep because that don't work. Although if you are not getting enough sleep, then you only compound the problems, just to live a comfortable [and normal] life.

## Light Links Inline::

The correlations tell you that by generating sufficient beta-carboline [yourself] you can generate compounds that are capable of [starting your spirit engine]. Each time you persist to investigate and experiment, you move forward. You do not need to use plants but can generate the DMT simply by becoming abreast of inner properties of your thought process.

If you want to be an interstellar hitchhiker, you may need a towel according to Douglas Adams, creator of "The Hitch Hikers Guide to the Galaxy". What's the towel for?

To wrap around your head!! Get dark dummy. :-) Your imagination [visions] may only be limited by your lack of processing. Are these [visuals] real or are they a dream world? Fiction or Fact? This hits directly as a PTB issue. If humans become more than cattle, they may become dangerous to the public [themselves]. Clever tactics... The X-Men tactical move, send in "The Negative One" to destroy the target enemy. What does your future hold? Imagine....

### A Time Not So Far Away in Your Head

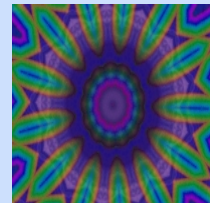

**Beta Morning News Alert, July 5, 2113:** Little smiley lady speaks, "Delta Destroyers were sent out this morning near the zero dead zone. I-negatives were caught and processed at the animal-bio facility near MemCore. Code direct punishment to the Black-Time Law was administered. The hacker dissident's pin [pineal] codes were attempting to process "Class F" un-permitted thoughts and they had several Beta4 sleep violations. Thermal MemCom [who invented heat membrane resisters allowing humans to use 40% of their brains] recorded the violations with their Revolutionary Beta-Alert detection provided by the Stellar OptiPhon [light] Sat System."

"In a related story, last week's Sect incidents concerning the time delay Homan anomalies, which were near the Mars line, were ruled to be unauthorized DMT Waves through that sector." [news pause]

John listening to his head says, "Bull, ah.. coughs..." Mem6-PAC, stat please? "Stat-error" Memory set." [news restarts...]

"Our new sponsor MemCom now provides our wonderful new SingleView you're receiving now, optically transmitted to your pleasure space via clean data-light." [news pause]

[Background music playing in the head; John Myerack, who had seen the zero line without thought, stood at the corner out of view of the blue-green and purple port that walked on air. The look in his eyes said everything. He was only one stat error from a pineal transplant and permanent slavery. Another light surgery being implemented by MemCore. John had his genitals removed that way to maintain status when he was young, before the war. He desperately needed to validate the stolen ionized pass. He starts to think, his eyes become grey, then quickly he let's

go, and his eyes turn the color of blue crystal snow.]

John loads the pass, then immediately turns the corner and approaches to say, "Stat4555", (his assigned IDP). "Opti-mem1, may I assist?" "Pass 734p1 p.. please." "Pass confirmed, 2 RECP." John quickly walks away while seeing a group near, in their wander, being monitored by a black jaguar. John may now get his only chance to escape this nightmare. John passes the next vision display.

[news restarts...] "And here is today's Deb-in Star Status Discount. You get a great selection of hottest new summery *faux fiery fashions* inline. Simple pay attention special one and delay your charge time. Your data-light is being sent now. If you have status problems, please re-insert your USPL charger directly into your pin-pod before your reco-cycle terminates."

John turns away from the display which had automatically knew his presence, begins to stumble as he gets out of view, and he immediately says, "Opt pause, Pass set 2 RECP please." A black eyed tiny lady appears in his head and give him an instant response. She says, "Pass set. Please leave the zero zone while online during your out time, and make sure you are secure inline the zone before cycle termination. You have 2 cycles left on your pass, have a enlightened day. Opti-Mem1 contact in 1 cycle, 19 horus, and 3598 pinutes."

[She vanishes and the optical receiver in John's head will be off for only 2 cycles. Slowly, his eyes begin to look normal. He gasps, "Silence is golden" and quickly heads in the direction of the dead zone. He now must find the Doc one more time. Doc had been a close friend before the Ion War had been revealed in 2092. [...]

[Pause... turn off the viewer.]

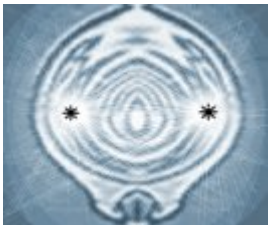

## Fiction or Fact::

In this nightmare world of the future, no one gets to sleep. They can only get charged if they have status. Dark areas are **forbidden** as mass structures of light are built where one works. At sunset, large animals are released that are smarter than some humans. They agree to patrol for the return in their diet of fresh human. They patrol the inline zones and often break their rules with MemCore, the master race of Ion Warriors.

As a scenario, the Ion War is where 2 groups battle for earth, while the others just stare with a blank face, having their brain power reduced to about 1%. One group is those who would be called [in earth terms] time travelers, but are actually normal humans who have utilized their super powers. This allows them to transport from location to another on the opposite plane, but only with good navigation. The others, are the same old PTB's who have always wanted to control others, now they have black eyes [a light lens], as actually what they see is not three dimensional.

At some point in time around 2045, people began to lose the ability to reason. Even colleges were closing down. It was an epidemic never seen before. No one could control their emotions or could deal with speaking. It was like everyone was having a nervous breakdown. The PTB began rounding up and experimenting if they could get innocent people to become completely subservient, by surgical implants [resisters] created with human membranes. Their focus was the pineal gland and their attempts slowly worked. Slowly but surely, over the next 30 years, people were moved, shipped, packaged, put on display, and sent out for more research, on a daily basis. Around 2078 things started getting ugly and soon the war began. [...]

**Imagine** for a moment having a **pin port** in your forehead. The **in** thing would be those USB's that we carry around today. You load in your movie, and enjoy the view. Talk about good stereo! Can all this happen? It can only happen this way for this scenario. Unless there is a massive kill, which still doesn't shut down mass human breeding; this scenario may be inevitable. It begins with a way to shut down your brain, and [maintain control]. One cannot be controlled efficiently any other way.

The knowledge [starter key] is REMOVED PERMANENTLY. By controlling your ability to [THINK], you are being herded for more slaughtering at some point.

**"The crystal flow must persist us."** [Credit is the ultimate controller of the Ion Masters.]

**"Implement *SingleView* immediately!"**

This story is a nightmare with **in** a nightmare [conspiracy] as all are. The Fluorine Ion is the secret war in your head now. Your simple contamination level [pH factor]; a little each day, slowing the cat approaches for the kill. This **ion devil** knows the enemy and how to affect your ability to reason [at the highest level] by attacking the **secret pineal code**. PTB clever tactics...

Are Ray Bradbury's Martians really advanced humans? The one's whose eyes are strange? Are you super powered? Can you travel through time? Your **inner properties** related to your human brain [pineal powered], signify that this may **be possible** but unused or blocked, from misguided development and forced manipulations.

**"We are Atom, the Original Core. By Ionic Bond, Our Ion Eve is Born."**

Atoms use light as their soul as you are at core. Electrons are numbered, and the fluorine atom has a non-neutral or anti-God purpose. It may also be said that fluoride is used in our water supplies because chlorine was used for another industry. Industries fill their gaps for maximum control of the credit market. Chlorine is commonly used in exposed water supplies [pools] to kill something called germs which are thought to kill people, yet chlorine kills you. Germs kill because the human is manipulated to accommodate [resistance] to the illusion of the force, i.e. cause a reaction that needs something you can provide. A perfect example is something called vaccine.

This is simply done by teaching preferred knowledge, combined with contamination that just happens to be a byproduct of everything we need, and [reactionary solutions] which are the core of the scam. Nostradamus has something to say about it here.

**"The religion called by the seas will overcome [we win], against  
the seat of the son. Adaluncatif [if actual DNA]. The stubborn  
lamentable sect, the two men wounded by Alpha and Alpha. X.XCVI**

This is one of the very last quatrains Nostradamus wrote in Century Ten. It was a mystery until now. The Fluoride [contamination] flow will lose. The seat of the son is those who believe man is not female in nature, or is not of the mother, not of the soul. They see themselves as men in their mirrors. Nostradamus has a strange word included that just happens to be an anagram for [if actual DNA]. Here he might be saying that those who have certain capabilities possessed may have the opportunity to find their true destinations. The seas may represent the tears that flow from the heart, the power within that holds the mother's destiny, the spiritual spark of true life.

Although these are hypothesized, they seem more than real. Is the rabbit hole actually a rabbit hole at all?

## Part Five: Matrix Correlation - Fiction or Fact::

When you start to [think] about your own philosophy in nature, you probably have become complacent as most have. You wouldn't expect the kind of advanced operating system, [photo at right], for that type of processing. Maybe for smaller animals, but human brains are extremely advanced with a [thought] processor [organic chip] called the pineal which regulates your existence spoken of in Part 3 and 4.

And one would wonder what kind of **power system** would operate that type of advanced operating system. Is that battery power or something more advanced? In reality, it is solar [soul] powered. A charge is instigated in a fetus at some point in time during pregnancy. That charge then begins processing data and pre-programmed automatic systems are engaged, such as heart beat and other systems.

We are an organism with chromosomes numbered 23 each which makes a new physical entity possible when combined. Somehow, this new entity becomes electrically [electron] aware and IMMEDIATELY in operation of that new physical entity with the assistance of the mother for a pre-determined amount of time. Just exactly when this occurs and how is not understood. When we have a 90% block effect [may be going to 100%] believed in our own brain, we are unable to understand these things.

In order to understand them, we must tap into [our own operating system], and the answers will be revealed. Our ion friends [fluorine lovers] want to **crystallize** your [source of origin point]. They attack at the point of entry where you begin. The point in space and time from one dimension to the physical location of the pineal gland. Even though at the present time in our lives children are not born unable to reason, at some point in time in the future this may change. The continued contamination of dangerous poisons used as is, must inevitably affect the brains of all humans born if not changed. Those who heed the warning signs may become more of a minority than they already are, it seems. These new warriors of insight are our only hope.

## Spaced Time Warp::

Did you ever look at your battery cables on your car and see that green stuff growing around the connections? Basically, when you have a power source, problems can exist at the point where these two parts comes together. The energy is being fed from one point to another. Imagine for a moment that your pineal gland is your battery post to God. Your connection is being [back fed] bad energy and our pineal has become useless. [You have no resistance, you accept.]

To find your soul center or God, you need to work your way back to the source through meditation and production of beta-carbolines that allow access to your private members area of your brain. Here, there are control panels for advanced 3D tactics. Imagine...

In the recent book, "[What the Bleep Do We Know?](#)" by William Arntz, Betsy Chasse, and Mark Vicente, they present many idea worthy of much thought. Here is one of them. They talk about our existence in one way of quantum measurement where we experience a [repeated stimulus]. This **stimulus** will always illicit the original [thought] and [records] the thought as [brain memory]. [Ref: P72, The Observer] Although, how does the brain retain information?

How the brain works when you dream starts with the **stimulus** we receive while we sleep being regulated by the **pineal gland**. With this in thought, the pineal may actually control our existence in a much more important way as previously mentioned.

Our brains run continuously as long as we exist in the physical body [entity] we have as a temporary domain. And of course as long as health is an attribute. If our existence is based on what we [see out two eyes] as definite stimulus, our perception may be flawed. Our control and perception of [the outside world] may be unlimited and not understood as of yet. To see the light at the end of the rabbit hole may require looking for a deeper meaning.

We may actually receive light data from the [other side] through the pineal. The solar force allows us to perceive a fun filled physical world [looking out] and our job is to [learn from it]. In order to pass this course, you must figure out the puzzle while viewing the outside world. Once the puzzle is solved, you will no longer need the outside world. You will have found the source on a long journey within.

II Corinthians 5:17      Therefore if any man be in Christ, he is a new creature: old things are passed away; behold, all things are become new.

So this solar [observer] force is trapped in the body. In 1994, John Iovine published "Kirlian Photography", A Hands-on Guide. He speaks of the electric charge as having its own electric field. In this type of photography he educates you on, light has been recorded around the physical body. It seems every living thing has a field of energy. There are also instances of interaction between individuals where the light could be seen changing and interacting with the other individual. So we have fields of energy which is a way to understand how

something would travel through empty space such as a wave. If we are electrically charged, then we would obviously have our own fields. This implies our creation is from somewhere else and not totally physical in nature. The anomalies alone suggest this is so.

**The Ion is the Atom; and We Are Eve,  
an Electrically Charged Powered Entity.**

Isaiah 33:17 Thine **eyes** [two eyes] shall see the king [Jesus] in his beauty; they shall behold the **land** [stimulus recorded] that is very far off.

Isaiah 33:18 Thine **heart** shall **meditate** terror. Where is the **scribe**? Where is the **receiver**? Where is he that counted the towers?

## The Two of You::

In this interpretation, the scribe is your mirrored image of yourself. The second particle of mother light. It follows you the day long, following orders [taking notes] from your earth bound experience. I speak of this in a study on [Intellectual, Spiritual, Physical, and Emotional](#) functions I did in June 2006. You can make direct contact by seeking inside the spirited partner through **deep meditation**. This strong experience overcomes terror. To look yourself in the eyes through the one physical eye. This is where the receiver is. Human's become side tracked and do not figure out they have a receiver inside. They count only on the outside because of its vastness and amazement.

The new findings concerning light are amazing and completely change the paradigm of thinking for our future. It is now thought light knows where it is going before it gets there in a way. When light is sent into certain types of fibers, it reaches the source instantly and is actually feeding in **reverse [mirror]**. It has also been discovered that gravity may equal the speed of light.

Psalm 119: 96	I have <u>seen an end</u> of all perfection: but thy commandment is exceeding broad.
Psalm 119: 97	O how love I thy law! it is my <b>meditation</b> all the day.
Psalm 119: 98	Thou through thy commandments hast made me <u>wiser</u> than mine enemies: for they are ever with me.

Your **resistance** to the physical eye discussed in part three is important because your enemies will always be with you. It is your **wisdom** that allows this or not. To engage your [real existence] your journey must be within. What you may find is very similar to the story of The Matrix. The carnal minds of the world want to make you their puppet by shutting down your pineal forever.

Are there individuals who are tapping into this new paradigm shift? According to many scientists and philosophers, we are experiencing a wave of change in the minds of many. This power alone is a [field] of growth and effects many at once. The wave travels through the physical world and touch the minds of others in many ways. The power we hold within may be driven by the same source which would explain the tendency for thought to ignite the spirit world of others.

Romans 8: 6	For to be carnally minded is death; but to be <b>spiritually minded</b> is life and peace.
Romans 8: 7	Because the carnal mind is enmity against God; for it is not subject to to the law of God, neither can indeed be.

## The Ion Spirit - Greener Lights Alliance::

How do you feel about someone taking your spirit away? How about shutting down your brain so you can never really find him or in reality her. Yin becomes Yang, from the beginning, you are a gift from the spirit to view this world. A temporary lesson, a chance to understand.

Revelations 12:1 And there appeared a great wonder in heaven; a women clothed with the sun, and the moon under her feet, and upon her head a crown of twelve stars.

Revelations 12:5 And she brought forth a man child who was to rule all nations with a rod of iron; and her child was caught up unto God, and to his throne.

Revelations 12:14-17 And to the woman were given two wings of a great eagle, that she might fly into the wilderness, into her place, where she is nourished for a time, and times, and half a time, from the face of the serpent. And the serpent cast out of his mouth water as a flood [Narcissisms] after the woman, that he might cause her to be carried away of the flood. And the earth helped the woman, and the earth open her mouth and swallowed up the flood which the dragon cast out of his mouth. And the dragon was wroth with the woman and went to make war with the remnant of her seed, which keep the commandments of God, and have the testimony of Jesus Christ.

The Black Ion Dragon is real. He disrupts the balance between the spirit mother because he fight his own personal battle for power in his own mind. He then spills it out his mouth. It all comes back to believing you are the first, or your existence is new, when it is not. Your power exists as a group effort, all of the one ion mother. You are among friends. You are not alone. Distance is not an issue. Join one with all and you may leave this place.

The Dark Dragon will be defeated.

Mark 13:37 - What I say to you I say unto all Watch.

Psalm 18:10 - And he rode upon a cherub, and did fly; yea, he did fly upon the wings of the wind.

Psalm 18:11 - He made darkness his secret place...

Luke 17:21 - The Kingdom of God is within you.
